- User-friendly machine easy and simply to install.
- Plastic strip for sight line to visualize the cutting line and avoid guesswork need.
- Cutting thickness up to 20 mm for semi-rigid materials.
- Dust free operation to safely work close to printers.

The combination of the robust bearing block with the steel linear rail, which is common to all InBest cutters, guarantees an accurate and smooth cutting head movement.

INTERCHANGEABLE CUTTING HEADS

Easy system to quickly interchange the cutting head to use, while the attached handle ensures an extra comfort.

The different cutting heads available provide the equipment with a great versatility and productivity.
